Centre for eResearch
Sequencing Data
CeR TREASURE TROVE

Data Visualisation
- Virtual Reality
- Augmented Reality
- 3D Renders/Webpages

Data Analysis
- Research VMs
- Nectar VMs
- NeSI HPC

Data Collection
- Data Management Plans
- Data Storage
  - Unifiles Network Drive
  - Dropbox

Data Visualisation
- Virtual Reality
- Augmented Reality
- 3D Renders/Webpages

Research Support
- Research-hub .auckland.ac.nz
- Hacky Hour
  - 3pm Thursdays
  - Strata Cafe
The Future

• More genomic data
• Linking non-AR resources
• Enhanced interface
• More user testing
We’re learning things about our data we could never have seen in traditional ways.
We’re thinking about cancer, and the human body, in a completely different way.
We’re challenging our traditional views
We’re expanding our own skillsets
It’s **amazing** what happens when you bring **different disciplines** to the same room.
Thank you
